

3D Strip Brush System Parts

1-3D Universal Pad & Brush Driver

1-Clutch Plate

1-Riser with 4 Riser Bolts

4 -.50gg Black Grit Brushes

8-Brush Mounting Screws

5-Stripping Pads per Box

4-Nylon Brush Extenders

Assembly Instructions:

- 1). Remove the 4 riser Bolts and align clutch plate to riser and screw down locking Clutch Plate to Riser and 3D Universal Pad & Brush Driver

- 2). Lay Stripping Brush Segment into molded area aligning holes and screw Brush Mounting Screws to Toggle bolts inside of 3D Universal Pad & Brush Driver and repeat locking all 4 brush inserts to 3D Universal Pad & Brush Driver

- 3). Place Stripping Pad onto 3D Universal Pad & Brush Holder allowing bristles to protrude through pads

- 4). As brushes wear down add brush insert extensions for extended brush life

Tips

- Switch brush inserts around occasionally to maximize effectiveness
- Clean brush inserts with hot water after each use
- Use nylon brush extenders to fully use the insert material
- Order an extra set of brush inserts as they are a wear item to maximize the effectiveness Part#ST-050-17
- Do NOT use this on bathroom tile as it can damage it. Use our 3D BLUE scrub System Part# BL-035-17

The synergy of combining pads and brushes creates the ultimate 3D floor care!
