details make the difference...

easytrigger

oversized dispensing trigger to reduce hand stress and fatigue

ringbumper

protects trigger from impact and reduces stress when pushing or carrying

dryvalve

simple, reliable, valve never touches cleaning solution and is the ultimate in reliability

trustytubing

chemical-resistant tubing ensures no leaks, even with bleach-based solutions

brush&mop

a revolutionary green cleaning product that combines two tools in one. A super absorbent double sided Microfiber pad combined with a grout brush. Swivels 360 for ease of use, wet or dry.

This attachment is sold separately.

powergrip

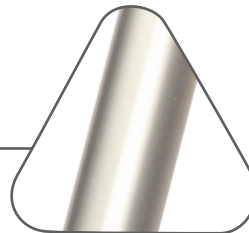

the handle top is a smooth, flattened oval, shaped to perfectly fit the palm of your hand for comfort. To further reduce muscle strain when mopping, Cedar Creek

wraps a rubber grip around the oval that also prevents the handle from falling when leaned against a wall—small details that make a HUGE difference

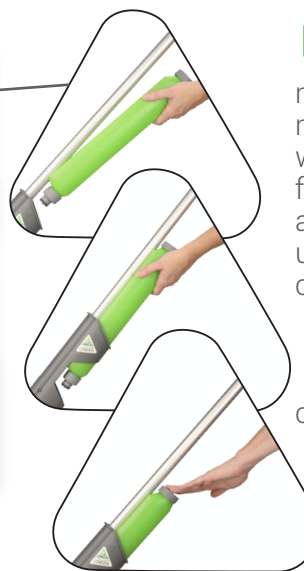

solidcore

one-piece, durable, lightweight aluminum core tapers from a large diameter, designed to fit human hands, down to a smaller diameter for better frame connection

refillbottle

removable 21 oz. reservoir with 1.5" wide mouth for easy filling ensures ease and efficiency for using multiple cleaning solutions...
...additional refill cartridges available in green or yellow for color coding options
