Money saving

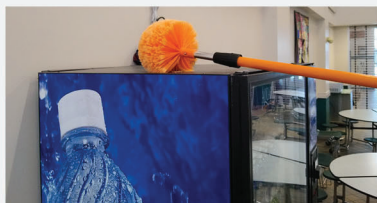

Green Friendly

Improves safety

Fully Automatic

Fas-Trak Industries is proud to introduce another pure patented innovation to the commercial industrial cleaning community. Clean Spin can be used with any battery portable drill to effectively clean and remove dust and cobwebs from all surfaces such as walls, partitions, vents, baseboards and light fixtures. No more disposable expensive feather dusters to throw out. Our spinning design improves cleaning time by over 60%. The Clean Spin also extends up to over 10 feet. No ladders required and improved safety for the operator!

Safe to use indoors or outdoors too!

FAS-TRAK APPLICATIONS

Fas-Trak Industries is a proactive innovative manufacturer of performance related application technology for the maintenance & janitorial industry. Our passion is to create innovative performance solutions by redefining and expanding surface application processes.

Our proprietary patented technology is industry proven and addresses the main challenges related to floor care issues today namely – labor savings as well providing superior results. Our product solutions can be used on tile, terrazzo, concrete, gym floors and many other floor surfaces.

- Extendable pole feature - clean up to 12 feet
- Use indoors and outdoors!

Drill not included!

FAQ's

Q. Why this instead of a traditional "feather" type duster tool?

A. Our state of the art powered dusting - cleaning system uses a power tool and brush rotation in tandem to clean better and faster.

Q. What drill is required?

A. We recommend a small light-weight one. You can use your cordless drill of choice.

Q. Are there other brush attachments available?

A. We are going to design additional brushes in the near future to further expand the use of this most unique system. We do recommend using the current brush slightly dampened to remove lightly soiled areas.
