### FAQ's

**Q.** What is the difference between this and the doodle type oscillating machines?

**A.** Rotary mechanics are far superior by design and our innovation counter rotation design further improves removal of soils from **all** surfaces. Physics confirm this factually. The rotary design of the wheel is still the most effective and efficient method known to mankind.

**Q.** What is the difference between the other units that are on the market?

**A.**

- 1) On board solution delivery system
- 2) Multiple attachment options
- 3) Higher agitation platform
- 4) Non oscillating!

**Q.** Why 3 counterrotational head design?

**A.** This design provides amazing stability and unrivaled scrubbing/stripping especially for baseboard work.

**Q.** Why 3 counterrotational head design?

**A.** This design provides amazing stability and unrivaled scrubbing/stripping especially for baseboard work.
