

## Introducing the newest feature on the Ultra-Trak: The Ultra Spray Attachment

With just the slightest of alterations to our already [fastest in the industry!] tool for coating floors, we are now ready to launch our versatile unit for spraying most concrete chemicals to floors and walls! No cords, no backpacks, no pumping or trigger-pulling strain here!

With the new "Ultra-Trak Plus" 2-in-1 Chemical Application System, you get all of the benefits of the original Ultra-Trak, but with the added benefit of having a spray system.

Money saving

Green Friendly

Improves safety

Fully Automatic

## ULTRA-TRAK Plus

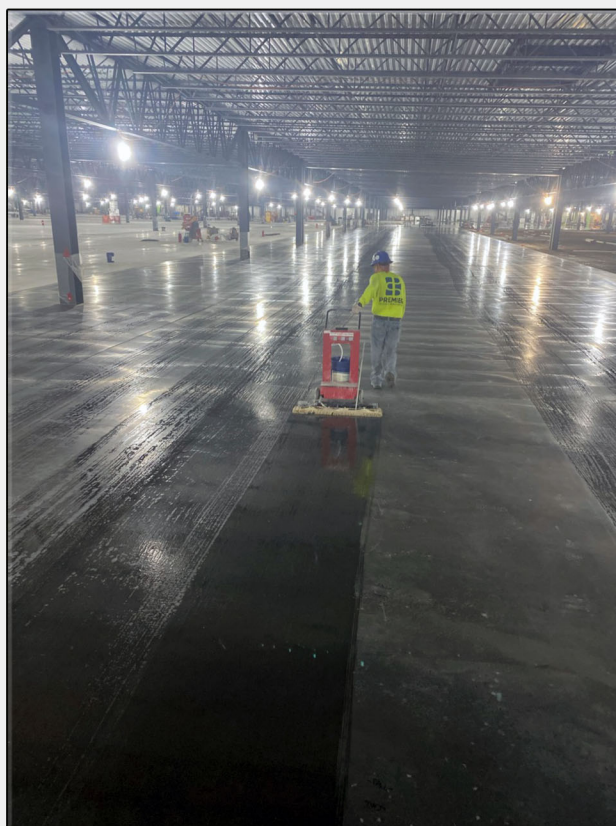

Chemical Applicator – Concrete Plus Edition

Tired of slow, inconsistent methods of applying chemicals? Fas-Trak Industries is proud to announce ULTRA-TRAK, the revolutionary chemical application system! The ULTRA-TRAK is the most productive, pressurized chemical application system on the market today.

We had the user in mind when state-of-the-art technology and common-sense engineering were combined to produce the most time efficient chemical applicator ever. This superior

labor and chemical saving applicator is designed for all areas where professional quality is key to minimize costs and improve the desired polishing results.

## FAS-TRAK APPLICATIONS

Fas-Trak Industries is a proactive innovative manufacturer of performance related application technology for the concrete floor industry. Our passion is to create innovative performance solutions by redefining and expanding surface application processes.

Our proprietary patented technology is industry proven and addresses the main challenges related to floor care issues today namely – labor savings as well providing superior results. Our product solutions can be used on concrete, terrazzo, and all hard floor surfaces!

Our customer base is a who's who which include Venture Speciality, US Postal Services, Southeast Services and Concrete Visions to name a few.

*"The Ultra-Trak application systems we bought have been used by our staff and we have reduced our hardener densifier usage by 35%. Our labor reduction is around 60% but the uniformity of application has given us a superior polished concrete result. Ultra-Trak is a contributing factor in obtaining substantial growth in an ever competitive field. "*

Dan Baird, Owner  
Floor Tech Solutions - Midwest Region

## FAQ's

**Q.** Why is a pressurized application system better than spray systems?

**A.** Our proprietary design allows for consistent, uniform and accurate delivery of chemicals which improves desired finishing results. There is no overspray or misting of chemicals to unwanted areas.

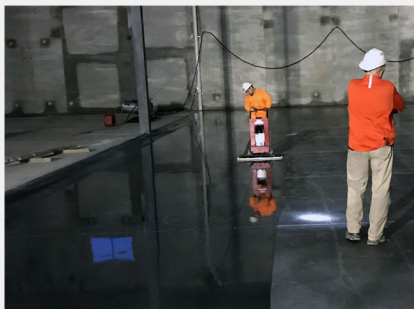

**Q.** Why should I use this system verses running the densifier through my automatic scrubber?

**A.** Automatic scrubbers waste too much product! Plus the weight of the machine leaves wheel trails! Your chemical consumption will lower dramatically and the polished results will improve.

## SPECS AND FEATURES

- Apply water based concrete coatings at 20,000 sq/ft hour!
- Apply densifiers, hardeners, finish coats and sealers at 25,000 sq/ft hour. (10x faster than conventional application methods)
- Environmentally responsible: Cut product waste by up to 20%. Save \$!
- Fully Automatic & Pressurized: Cleans in one minute
- Fully adjustable application feature
- **NEW!** Spray attachment feature - Use in smaller areas.
- Built-in charger with a battery run time of 5 - 7 hours
- 3 Head sizes available: 28", 36" or 48"
- Portable and lightweight
- Industrial grade quality and performance
- Made in USA!

## IDEAL APPLICATIONS

- Warehousing
- Contractor Services
- Airports
- Convention Centers
- Auditoriums
- Shopping Centers
- Industrial Facilities

## PARTS & SIZES

Warranty: 1 year parts  
10 years on body

CFT-5020-28, Ultra-Trak 28in Application System  
CFT-5020-36, Ultra-Trak 36in Application System  
CFT-5020-48, Ultra-Trak 48in Application System
