TEFAS-TRAK Innovative Performance Solutions

WWW.FAS-TRAK.COM

"We spend much less time applying coating in our large facilities then we used to. The Ultra-Trak is an amazing floor finish system and reduces worker fatigue significantly."

Robert Neal (United States Post Office)

"Our school system loves the Fas-Trak innovations such as the Ultra-Trak Plus which now has a NEW spray system for us to combat Covid-19. We use the Ultra-Trak Plus for applying floor finish, and applying disinfectant with the spray system - it is incredible! It hold 5 gallons on board and we do that process 5 times faster than traditional methods. We are also loving the Cedar Creek Fluid mopping system with the 3 D brush for cleaning ceramic tile-edges and corners! This company has an amazing line up of innovations."

Keith McLean (Crete-Monee 201U School District)

"Solid innovative products. Using the Ultra-Trak machine has saved us time and costs. We would use 40 pails of floor finish with the mopping system and when we changed to the Ultra-Trak machine we used 20 pails instead of 40. The 3-D brush system has been a great product to use for floor striping and top scrubbing. Fas-Trak has been great to work with and we like there equipment and innovation. Highly recommended by me."

Allen Slager (Arbor Park School District #145)

"We have used the Ultra-Trak on \sim 600,000 sf so far on this project and I have nothing but good things to say. The user controls are very simple and effective and after dialing in the dosage rate on the first pour, our Densifier usage vield has been within 1% of intended application. Thank you for such a well-made product. Looking forward to working together in the future."

Ryan McRae (Lithko Contracting)

"For such a simple piece of equipment, Fas-Trak Industries Inc.'s Ultra-Trak offers users a lot of flexibility when it comes to applying densifiers and sealers."

Dan Baird (Floor Tech Solutions Inc.)

"The custodial staff welcomed the automated floor finishing equipment, which made the difficult task much easier. It has dramatically changed our floor care program as we have adapted to the year round school model. We also have many after school and after hour activities, which limit our timeline to conduct floor care maintenance. Due to the Fas-Trak's new found efficiencies Greenville can now scrub and recoat year round which as extended the floor life cycle."

Gregory Ince (Greenville County School District)

I & ALL-SURFACE FAS-VAC >>>> Li-lon Battery-Powered Wide Area Vacuum

- >> Cordless Freedom: no cord trip hazards, no looking for electricity outlets. Easier, faster and safer operation.
- >> Vacuums large surfaces @ 25,000 ft²/hour: 8x faster than conventional methods for labor savings. Cleaning Path: 28".
- Recovers 1.5 Bushels (14 gal). Superior dirt recovery due to top load design. 80% less time changing bags.
- > Industrial performance from a heavy-duty machine with a compact lightweight design. 38" x 31 "x 16" @ only 72 lbs for unrivaled maneuverability and reduced worker fatigue.
- > Powerful design brush speed @ 2350 rpm, capable of moving 200 ft³/min of air. Brush assist drive for ease of use. 36V PMDC motor, 0.62HP, 20A Max.
- > Quiet operation @ 75 decibels, generally regarded as safe.
- > Lithium ion construction 36VDC, 15AH mated with 42V charger.
- >> Charging time: 2 h (single battery) and 4 h (dual battery).
- Run time: 1.5 hours.
- Proudly Made in the USA.

Tired of trying to force a round buffer into a square corner? Looking for the means of quickly cleaning, scrubbing or stripping baseboards? Then this is the machine for you! This multi-surface, bi-directional 3-headed buffer-scrubber-stripper will get you tighter into corners and simultaneously work on both the floor and baseboards. Here are just a few of the features:

> Each brush spins at 525 rpm – 3 TIMES the speed of an average buffer

- > Easily moved and carried from job to job with just 36 lbs of machine weight
- >> Features at least 8 various sets of drivers that make you productive on any floor

Part No.: FT-7500 (all brushes sold separately)

Sor dual industrial scrubber

Big jobs are no problem with the **ULTRA-SCRUB MAX 30**" wide area floor machine by Fas-Trak Industries. Two 15" heads work in harmony to scrub, strip, or polish a 30" path quickly and effortlessly. Cut labor in half and still not break the budget with expensive automatic equipment. The Ultra-Scrub's unique design provides Forward Assist™, a first of it's kind in hand-held scrubbers. Get behind the Ultra-Scrub. It's just like flying.

- > Robust design for years of service.
- > Solid solution where peformance results are required. 2 Times Faster!
- > No expensive isolators to replace/repair.
- > Multi-use platform all resilient and non-resilient Floors / Carpeting
- > 11 gauge steel construction Build Tough!
- > Large 6 gallon solution tank!
- World class design improves use safety by the counter brush working together.
- Outperforms oscillating "Square" units hands down with 30 inches of productivity and better results!
- Made by Fás-Trak Industries company leader in floor care innovations!
 Made in Indiana with pride.

CONSIDER THE BENIFITS OF FAS-TRAK INNOVATIVE SOLUTIONS!

- > Unique 3 ply film design for high performance
- Drop Dart ASTM D1709 certified
- > Tested and proven to outperform traditional
- Ergonomical designed to reduce lifting stress
- Hygienic and NO contact with various wastes
- Visually pleasant and has tilting feature
- Only system that is designed to address challenges of the traditional typical trash liners
- > Continuous film design that allows for better trash management
- > 100% filling economic and environmentally friendly
- Clips for closing the liner included with every box
- » "Right size" every time saves film cost and reduces waste

Save labor dollars • Quick & easy clean up
Environmentally responsible • Precision adjustments
Fewer work related injuries • Eliminate cross contamination
Reduction of plastic usage & waste • Rugged construction
Ergonomic, portable & ligthweight desing

•: FAS-TAB

A Revolution in Sanitation and Disinfection Portability.

Add a level of cleaning, deodorizing and sanitizing power to your Fas-Trak equipment with our Chlorine Dioxide Tablets available in two sizes: HSC20 is strictly for adding to 4 gallons of water in a pail for use through your Ultra-Trak Plus Spray Wand attachment. HSC are 1 gram tablets that may be used in 3D Fluid Tools or simply to prepare 32oz spray bottles of spray cleaner, deodorizer and sanitizer. Perfect for use with ProTab Wipers.

FT-ProTab_500

PROFTAB^{The Compressed Cloth in the Shape of a Tablet.}

Forget the pre-moistened, quick to dry out wipers that never deliver on their promises. Prepare fresh solutions of any cleaner or sanitizer you'd like and simply drop in as many ProTab wipers as you think you'll need. These compressed disks quickly hydrate and expand to create 9" x 9" durable rayon wipers that will outperform all comers for cleaning and sanitizing surfaces.

TOUCHLESS WIPE DISPENSER

Did you know the wipes you use are made of plastic?

REVAWIPES AREN'T

WHY Reva?

>> Uses Leed Compliant paper towel rolls

Reva

- >> Hands-free operation
- Estimated cost savings of up to 50% over traditional disinfectant wipes

REVA WIPER

- Your choice of fluid:
 - Disinfectant
 Cleaner
 - Sanitizer
 And more
- Easily refillable fluid reservoir

- >> Users can choose a wet wipe or dry towel at any time
- >> High-capacity towel rolls (550') and reservoir (2QT)
- Transparent cover to view fluid levels
- > Quick and easy to replace towel roll and refill fluid reservoir

ENVIR

S-TRA

19

Powered by a rechargeable extended life battery pack, disposable batteries or a plug-in power cord Low battery and towel roll indicator lights

REVAWIPES ARE BETTER THAN CANISTER WIPES FOR YOUR PRACTICE OR BUSINESS

Revawipes are Better Than Canister Wipes for Your Practice or Business

- Ease of use (hands-free) Substantially reduced environmental impact
 - Significant cost savings
 Cross contamination eliminated
 - Consistent wipe saturation Longer service interval

UNDERSTANDING YOUR ENVIRONMENTAL IMPACT

Disinfectant wipes are made from various forms of plastic. Decomposition of these types of products is estimated between 100 and 200 years. Once decomposed, the microplastics from wipes are still left behind. Reva's LEED compliant towel rolls are manufactured from organic material with decomposition measured in weeks, not years.

COST SAVINGS

The top priorities for any business are to serve its customers well and, in turn, produce a profit. Switching from traditional canister wipes to Revawipes will decrease costs, and increase productivity.

Switch to REVA today. Reduce your footprint. Reduce your spend.

Our NEW SCALE-AWAY pad will quickly and easily remove soap scum build-up, mineral and lime-scale deposits from many hard surfaces. It is spectacular for removing tarnish and discoloration from stainless steel, chrome, copper and other common fixture surfaces.

Our **SCALE-AWAY** Chemical - Free Cleaning Pad is not a 'Magic Eraser', nor does it squeak and squeal like one when in use! In fact, you don't even use the white side of the pad in regular restorative cleaning applications - you use the gray layer.

Part # FT-SA-100 This pad will guickly and easily remove soap scum build-up, mineral and lime-scale deposits from many hard surfaces. It is spectacular for removing tarnish and discoloration from stainless steel, chrome, copper and other common fixture surfaces.

Simply moisten the pad or surface to be cleaned with water, then use the unique profile to clean hard, unpainted surfaces like:

- Glass (window glass, shower doors, etc)
- Ceramic (tub & shower)
- Stainless Steel (especially brushed)
- Laminates (countertops, desktops)
- >> Chrome (matte or polished)
- >> Copper, Brass, Silver or Gold

((« SEALE AWAY »)) Now Available in a NEW Size!

Looking for more scrubbing and cleaning surface area? Then consider our 4" x 10" SCALE-AWAY with a thin, Velcro backing for use on a hand or swivel holder. Great for use on larger surfaces and better for applications on curved surfaces. Like the original SCALE-AWAY PAD, our NEW 4 x 10 inch SCALE-AWAY pad will quickly and easily remove soap scum build-up, mineral and lime-scale deposits from many hard surfaces. It is spectacular for removing tarnish and discoloration from stainless steel, chrome, copper and other common fixture surfaces. This product is packed and sold 50/cs.

RESTROOM CARE> **DAY URINAL MAT**

WW.FAS-TRAK.COM

WORLD'S FIRST REUSABLE MAT TECHNOLOGY

Day urinal mat is a clever invention. It's a 3-piece rubber mat. It comprises a base mat, which has a tray-like top. This tray holds removable, scented, absorbent pad. The pad is covered by a top mat, which snuggly sits in and fastens to the base mat with a simple lock.

Cleaners need to rush to check for spills close on the heels of a clumsy user. The pad inside the mat has considerable absorbing capacity. And cleaning the mat is simple and non-messy, too. Just take the whole mat to the cleaning area, unfasten the top mat, take out the pad and dispose it off, wash and dry the base and the top mats, put a new absorbent pad in, and there, its's ready to take spills again!

FEATURES

- > Medical-quality low-slip poly backing keeps absorbed liquids from penetrating to floor or surfaces below.
- > Superior strength means it can stay on the job longer
- Our Own Patented Designed Pads
- > Pads will not leak when removed/replaced
- Pads are made from a Super-Absorbent Material Sodium Polycarbonate
- Deodorizes and Eliminates Odors

BENEFITS

- DUM guarantees a cleaner restroom environment
 Prevention of urine puddles under urinal
 Presents restroom with a welcoming appearance

- > Contribute to a fresher smelling restroom
- » Decreases labor time for cleaning restrooms
- > Eliminates floor erosion/corrosion caused by urinary acid

DAILY CLEANING

The unique design of our mats provides the ability to replace the inner layer absorption pad out as often as needed without discarding the entire mat itself.

Tough no-lint top sheet

- Highly aborbent recycled synthetic fiber core
- Medical grade low-slip poly-backing

TUV accredited, the Pebble+ Plug & Play benefits from our Advanced Hygienic Protocol, incorporating intelligent H13 media filtration, UV-C light disinfection, and ION particle generation. UV-C sterilization is initiated when the Pebble+ is not active. The Pebble+ will automatically start to sterilize the air inside of the hand dryer as well as cleaning the local air externally to the hand dryer. Any bacteria and viruses within the H13 filter are also disinfected. Inaddition, negative IONS are produced to clear particulates from the surrounding air, allowing better air quality within the local environment. This protocol allows for 24/7 protection.

Volt

DRYER VS PAPER COSTS

- Cost of annual energy usage: \$26.00 against a paper towel cost of 450.00. A saving of 424 = 94%
- >> Recommended usage: Medium and High

* Calculated at KW/H rate 18¢ at drying rates of 150 dries per day, for 252 days per year, in standard mode with heat. ** 5 year no quibble warranty. All figures quoted were correct at the time of printing.

TRUST

Fas-Trak Industries has been in business for over 20 years and have served thousands of schools - colleges - universities - BSCs - Government agencies - ISP - concrete contractors - general contractors worldwide and would love to earn your business.

We understand that cleaning and coating are very labor-intensive tasks, making labor generally 90% of your application cost. We have dedicated our company to the most innovative means of reducing that cost with durable equipment that will often CUT those labor cost by more than HALF, job after job.

< < < < < <

AMERICAN MADE PRODUCTS

100% of our core and heritage products, and over 90% of our remaining items have been designed and manufactured right here in the United States of America.

Fas-Trak Industries is not reseller, we have a vested interest in ensuring that each and every one of our products are properly employed by trained cleaning and coating professionals. This is why you will find so many videos on our YouTube Channel. And when a video is not quite 'cutting it' you may call and schedule a video chat, or for large organizations, and on-site training presentation.

< < < < < <

SERVICE AFTER THE SALE

Many of our core items come with tremendous warranties, and parts are always in-stock and generally shipped next day. If at any time, you feel that a part has not performed to your complete satisfaction, please get in touch with us immediately by phone or by email and let us know what you need. We are committed to your full satisfaction.
